

Introduced by over 100 companies by release date Web camera for meeting room "Meeting Owl Pro"

https://www.sourcenext.com/product/pc/oth/pc_oth_002881/

SOURCENEXT Corporation (Headquarters: Shiodome City Center 33F, 1-5-2 Shimbashi Minato-ku, Tokyo; CEO and President: Noriyuki Matsuda) announced today that Meeting Owl Pro, released on July 31, has been installed by more than 100 companies by the release date. It is going to be installed at NTT Data Frontier Co., Ltd., KDDI Corporation, Sapporo Industrial Promotion Foundation, SORACOM, INC. JICA Hokkaido, Mitsubishi Shoji & Sun Corporation, Ryobi Holdings Co., Ltd., etc. (Company names are in alphabetical order)

We are proposing various products for telework as the third pillar of our business alongside Translators and Software. This product is the fifth product of telework related products handled by our company, and we will continue to provide various products in the future.

【 What is "Meeting Owl Pro"? 】

"Meeting Owl Pro" is a web camera for meetings equipped with a 360 degrees camera, a smart microphone system, and speakers. The AI 360 degrees camera projects the entire space. In addition, the AI automatically recognizes the speaker and focuses on the speaker and voice.

In a web conference with a business partner in an environment where employees who work at the office and teleworkers are mixed, the lively voice and camera work will activate the conference.
